<b>Description</b>	
University Profile and Academic Information	Osmaniye Korkut Ata University (OKÜ) was established in 2007 as a public university. OKÜ's goal is to develop individuals with the capability of putting the universal information to good use; to individuals who are knowledgeable and experienced in their respective fields, able to work as members of a team. The units at Osmaniye Korkut Ata University are located in the districts of Kadirli, Bahçe, Düziçi and Erzin together with Karacaoğlan central campus

	<p>located in Fakiuşağı Village. Faculty of Engineering, Faculty of Science and Literature, Faculty of Economics and Administrative Sciences, Faculty of Architecture, Design and Fine Arts, Faculty of Theology, Medical Colleges, School of Foreign Languages and Osmaniye Vocational School are situated in the central campus while Kadirli, Bahçe, Düziçi and Erzin Vocational Schools are involved in the districts. Besides, School of Applied Sciences is also available in the district of Kadirli.</p> <p>The medium of instructions is English. The total period of study is 8 semesters (4 academic years) in the faculties. The Education Programs are at international standards. The academic year is organized into two semesters of 14 weeks. The first semester (fall) begins in the beginning of September and ends in January. The second semester (spring) begins in February and ends in June. Examinations are held at the end of every semester.</p> <p>The basic principle of the teaching method is that students attend lectures to attain a thorough grounding in the theory relevant to their area of study. This theoretical knowledge is then put into practice particularly in the Engineering Departments where laboratory experiments are conducted not only to test the theory but also to search for new applications.</p> <p>The majority of the teaching is assessed at the middle and end of the semester through written and oral examinations. As the medium of instruction and examination is English, foreign students will study alongside their Turkish counterparts. The grades will be given in accordance with ECTS (European Credit Transfer System).</p>
